

Erratum

In Rowland *et al.*, (2007) there was an error which wrongly ordered the data in table 3. The correct table is published below.

Table 3 Distribution of As ($\mu\text{g g}^{-1}$) between sequential extraction operationally defined phases in a variety of Cambodian aquifer sediments

Operationally defined phase	SYII9	SYII28
Non-specifically sorbed	< 0.15	< 0.15
Specifically sorbed	0.75 ± 0.29	< 0.25
Amorphous and poorly crystalline hydrous oxides of Fe and Al	1.77 ± 0.23	0.13 ± 0.12
Well crystallized hydrous oxides of Fe and Al.	< 0.25	< 0.25
Organics	< 0.12	< 0.12
Residual (silicates)	< 0.6	< 0.6
Sediment type	Silt/clay	Silt/fine sand
Depth (m)	9	28
